

Dijets Token Sale Terms & Conditions

The Terms and Conditions (the “T&C” or “Terms”) apply to the buyer of the Dijets Token (hereinafter “DJT Token”) and potential user of the Dijets Protocol and any of its planned releases of the services marked Blockchain software architecture and constitute an agreement between Dijets Limited and you. Please read these terms carefully before making a contribution and/or purchase of the DJT tokens from any of the available websites/avenues. The T&C affect your obligations and legal rights, including, but not limited to, waiver of rights and limitation of liability. If you do not agree to these terms of sale, do not participate in the sale of the Tokens.

By purchasing the Dijets Tokens during the token sale (ICO) during or within the crowd sale period (hereinafter the “Token Sale”), you will be bound by this T&C, and all terms incorporated by reference. Your purchase of Dijets Tokens is subject to this T&C. You may not use our website, services, platforms, and acquire Dijets Tokens, if you are under 18 years old, and if you are a citizen, resident, habitant or legal entity incorporated in areas prohibited from participating in a token sale.

Applicability:

The following T&C constitute the agreement (the “Agreement”) between Dijets Limited (hereinafter “Dijets” or the “Company” or “us”), a UK Limited Company with registration number 13054151, and YOU (hereinafter “User” or “you”), with respect to the purchase of the Dijets Tokens and the future use of the services offered through the Dijets Limited platform (hereinafter “Platform”). By using our services, you are agreeing to be bound by the T&C in its latest version. You are aware that Dijets Limited may change this T&C at any time, on our sole discretion without any prior notice to you. Any changes will be effective immediately upon posting on our Website. Your continued use of the Dijets Limited Platform means that you accept any new or modified terms.

Services:

1. Dijets is aiming to create an ecosystem of Decentralised Application software architecture suitable for businesses looking to deploy Distributed Ledger technology and for individuals looking to utilise any of its proposed products/services as consumers. Dijets Ecosystem will be fuelled by its centrally provisioned, only-once minted digital currency tokens i.e Dijets Tokens. cryptocurrency.
2. Dijets digital currency will be issued as payment of services for its range of business and consumer services on its service marked platform, and a rewarding program for the community.
3. Verified KYC enables clients to participate/contribute in the Dijets Token sale.
4. Dijets Limited does not have the legal qualification as a security, since it does not give any rights on dividends or interest, any ownership right or stake share or equivalent rights or any right to receive future revenue shares, or any other form of participation in or relating to the Company or its performance, nor shall Dijets Limited holders have any influence or rights in the development or governance of the Company. Dijets, therefore, is not a share and does not give any right to participate in the general meetings of the Company. Dijets Tokens is final and non-refundable. The acquirement and use of Dijets Tokens shall not be done for speculative usage.
5. Dijets Tokens can be purchased during the Token Pre-Sale and Sale directly from the Company or after the Token Sale at the Company or as per the potential exchange listings.
6. Dijets Tokens is not an investment advice, a security nor an investment product and any action, notice, communication, message, decision, managerial act, or omission of the mentioned shall not be understood and interpreted as such. Dijets Limited company gives no guarantees as to the value of any of the Dijets Utility Tokens and strongly advises users to do their research and to not buy the Dijets Tokens solely for speculative reason. You represent and warrant, that you are acquiring Dijets Utility Tokens for your own personal use and that you are aware of all other risks deriving from holding Dijets Tokens as specified in these Terms and you accept them.

-
1. Dijets Limited performs as an entry ticket and is required to qualify for to avoid risks related to volatility (edging) Company may manage the funds received through Dijets Tokens distribution, by trying to minimise and/or avoid risks related to volatility using its best efforts, based on

Company's sole discretion. You expressly agree to any measure Company may apply in trying to avoid and/or minimise risks related to volatility or to the detriment of the company and/or its intellectual/developmental/creative property.

2. Dijets Limited is not a financial institution and is currently not under supervision of any financial supervisory authority such as FCA. Dijets Limited does not provide any licensed financial services, such as investment services, fund management or investment advice. None of the information or analysis presented herein are intended to form the basis for any investment decision, no specific recommendations are intended, and Dijets Limited, website and Dijets Tokens do not offer, are not and shall not be construed as investment or financial products. In the event of any regulatory changes would impact Dijets tokens, Dijets Limited reserves the right to amend its Services, the Website and the Dijets Token.

Token distribution

Token distribution is not a public offering of equity or debt and consequently does not fall under the securities or any prospectus regulation. You can make contribution into a smart contract system in Ether, Bitcoin (acceptable Digital Assets) or FIAT (according to accepted payment services) and receive Dijets in exchange. Company reserves the right to amend acceptable digital assets or FIAT at any time, based on its sole discretion. All acquirement of Dijets Tokens shall be publicly accessible via the Ethereum blockchain browser until Dijets own Main net is live after which Dijets Block explorer could be used for the same purpose/s.

Research & Knowledge

1. the User purchasing Dijets Utility Tokens expressly acknowledges and represents that she/he has carefully reviewed the T&C and fully understands the risks, costs and benefits associated with the acquisition of this token as indicated in the T&C.
2. The User undertaking to acquire Dijets Tokens in relation to the token sale should ensure that she/he understands and has significant experience of cryptocurrencies, blockchain systems and services, and that she/he fully understands the risks associated with the Token Sale as well as the mechanism related to the use and custody of cryptocurrencies.
3. Dijets Limited shall not be responsible for any loss of Dijets Utility Tokens or situations making it impossible to access to Dijets Tokens, which may result in any actions or omissions of the future User or any person undertaking to acquire Dijets Utility Tokens.
4. Dijets Limited is not a provider of (a) exchange services between virtual currency and fiat currency; (b) wallet or custodial services of credentials necessary to access virtual currencies or (c) cryptocurrency mining services. User expressly agrees and acknowledges that anytime throughout the duration of these Terms, Dijets Utility Tokens may require material, technical, commercial or any other changes and understands that an upgrade or modification of the Dijets Utility Tokens may be required. If a user decides not to participate in such upgrade, the user acknowledges and agrees that non-upgraded Dijets Utility Tokens may lose their functionality in full and that they may no longer use the Dijets Tokens.

Financial Regulation and Compliance

1. The purchaser of Dijets Tokens accepts that in some jurisdictions there is a possibility for Dijets Utility Tokens to be considered as a security, now or in the future. Company does not give any warranties that Dijets Tokens are not a security in all relevant jurisdictions. Each user of Dijets shall bear its own legal or financial consequences of Dijets Tokens being considered a security

in their respective jurisdiction. The legal ability of Company to provide Dijets Utility Tokens in some jurisdictions may be eliminated by future regulation or legal actions.

2. The user and the purchaser both accept that any source code used by Dijets company will not have its developmental shortcomings. It may contain certain flaws, errors, defects and bugs, which may be the cause of a future disruption on a small or a large operational scale. As a consequence the users functionality could get disabled or unresponsive for some users, expose users' information or otherwise. Such flaw would compromise the usability and/or security of Company and consequently bring adverse impact on the value of Company open source codes rely on transparency to promote community-sourced identification and solution of problems within the code.
3. Update of the Source Code. The Ethereum source code could be updated, amended, altered or modified from time to time by the developers and/or the community of Ethereum. Nobody is able to foresee or guarantee the precise result of such update, amendment, alteration or modification. As a result, any update, amendment, alteration or modification could lead to an unexpected or unintended outcome that adversely affects Dijets Utility Tokens and/or Company operation or market value.
4. Internet transmission risks. You acknowledge that there are risks associated with utilising an Internet-based digital assets, products and website including, but not limited to, the failure of hardware, software, and Internet connections. You acknowledge that the Company shall not be responsible for any communication failures, disruptions, errors, distortions or delays you may experience when using our services, website, platform, Dijets Utility Tokens howsoever caused.
5. Cryptography risks. You acknowledge that there are risks associated with cryptography, such as code cracking or technical advances such as the development of quantum computers, could present risks to all crypto-currencies including Dijets Utility Tokens. This could result in the theft, loss, disappearance, destruction or devaluation of Dijets. To a reasonable extent, Company will be prepared to take proactive or remedial steps to update the protocol underlying Company in response to any advances in cryptography and to incorporate additional reasonable security measures where appropriate. It is impossible to predict the future of cryptography or the future of security innovations to an extent that would permit the Company accurately guide the development of Company to take into account such unforeseeable changes in the domains of cryptography or security.
6. The developers of the Company do not lead the development, marketing, operation or otherwise of Ethereum. Anybody may develop a patch or upgrade of the source code of Ethereum's source without prior authorisation of anyone else. The acceptance of Ethereum patches or upgrades by a significant, but not overwhelming, percentage of the users could result in a "fork" in the blockchain of Ethereum, and consequently the operation of two separate networks and will remain separate until the forked blockchains are merged. The temporary or permanent existence of forked blockchains could adversely impact the operation and the market value of the Dijets and in the worst case scenario, could ruin the sustainability of the Company. While such a fork in the blockchain of Ethereum would possibly be resolved by community-led efforts to merge the forked blockchains, the success is not guaranteed and could take long period of time to achieve.

Unforeseeable Circumstances

1. Risk of unfavourable or unforeseeable regulatory action in one or more jurisdictions could cause disruption to Dijets Services. Blockchain technologies as whole have been the subject of scrutiny by various regulatory bodies around the world. Dijets could be impacted by one or more regulatory inquiries or actions, including but not limited to restrictions on any of its core features and services' permissibility.
2. Risk of theft and hacking. Hackers or other groups or organisations may attempt to interfere with your third-party wallet, the Website or the availability of Dijets Utility Tokens in any number of ways, including without limitation denial of service attacks, Sybil attacks, spoofing, smurfing, malware attacks, or consensus-based attacks.
3. Risk of mining attacks. Ethereum blockchain, which is used for the Dijets Utility Tokens, is susceptible to mining attacks, including but not limited to double-spend attacks, majority mining power attacks, "selfish-mining" attacks, and race condition attacks. Mining Attacks, as described above, may also target other blockchain networks, with which Dijets interacts with. Any successful attacks present a risk to the Dijets Tokens.
4. Risk of loss of value and uninsured losses. Value of Dijets Utility Tokens may fluctuate and you may suffer loss in value of such acquired Dijets Tokens. In addition to loss of value risk, Dijets Utility Tokens are entirely uninsured and are unlike bank accounts or accounts at some other financial institutions.
5. Unanticipated risks. Cryptocurrencies and blockchain technologies are new and untested technology and in addition to the risk outlined in these Terms, there are also unforeseeable risks that may materialise as unanticipated.
6. You acknowledge, agree and warrant that you have been warned of the potential risks involved by using our services, website and product and other relevant technologies mentioned herein as well as that there may be other risks involved, which are not specified herein and that you fully accept such risks.

Important Disclaimer

1. The T&Cs shall not and cannot be considered as an invitation to enter into an investment. They do not constitute or relate in any way nor should they be considered as an offering of securities in any jurisdiction. The T&C do not include or contain any information or indication that might be considered as a recommendation or that might be used to base any investment decision. This document does not constitute an offer or an invitation to sell shares, securities or rights belonging to Dijets or any related or associated company. Dijets will be used as an entry ticket and is required to qualify for direct access to the Dijets Tokens when it will be accessible and is not intended to be used as an investment.
2. Any information in the T&C is given for general information purpose only and Dijets does not provide with any warranty as to the accuracy and completeness of this information.
3. The offering of Dijets Utility Tokens is done in order to allow the utilisation of software services and not for speculative purposes.

4. Dijets Limited will be an overseeing entity managing the Dijets platform. Dijets is not a financial intermediary according to Federation Law and is not required to obtain any authorisation for Anti Money Laundering purpose.
5. Regulatory authorities are carefully scrutinising businesses and operations associated to cryptocurrencies in the world. In that respect, regulatory measures, investigations or actions may affect Dijets's business and even limit or prevent it from developing its operations in the future.
6. Any person undertaking to acquire Dijets Tokens must be aware that the Dijets business model and the T&C may change or need to be modified because of new regulatory and compliance requirements from any applicable laws in any jurisdictions. In such case, any person undertaking to acquire Dijets acknowledge and understand that neither Dijets nor any of its affiliates shall be held liable for any direct or indirect loss or damages caused by such changes.
7. Dijets will do its best to launch its operations and develop the Dijets platform. Any person undertaking to acquire Dijets acknowledges and understands that Dijets does not provide any guarantee that it will manage to achieve it.
8. Acquiring Dijets shall not grant any right or influence over Dijets organisation and governance to the users. These tokens will be issued by a technical process referred to as a «blockchain». This is an open source IT protocol over which the Company has no rights or liability in terms of its development and operation. The token distribution mechanism will be controlled by a Smart Contract; this involves a computer program that can be executed on an existing network or «blockchain» network that is compatible with the Smart Contract programming language. User/s acknowledge and understand therefore that Dijets (incl. its bodies and employees) assumes no liability or responsibility for any loss or damage that would result from or relate to the incapacity to use the Dijets Tokens expected in case of intentional misconduct or gross negligence.
9. Dijets will follow the ERC20 Token protocol initially and during the Token Sale process. The tokens will then be migrated over to Dijets own Main Net once it goes live. The exchange rate for any migrations will be 1:1 Therefore, any malfunction, unplanned function or unexpected operation of the Ethereum protocol may cause the Dijets Tokens network to malfunction or operate in a way that is not expected.
10. Employees of Dijets Limited are allowed to operate with Dijets Tokens at market price if they are not in knowledge of information that may modify the price of the Token.
